Net1 provides update on EPE accounts court process; expects Q2 2019 loss

Johannesburg, January 31, 2019 – Net 1 UEPS Technologies, Inc. (“Net1” or the “Company”) today announced that on January 29, 2019, the High Court of the Republic of South Africa (Gauteng Division, Pretoria) handed down its final judgment in the Company’s application to direct SASSA to pay social grants into the EPE accounts of recipients who had previously made biometric elections to receive their grants into their EPE accounts, but had not submitted a SASSA-prescribed form called an “Annexure C form”. The High Court reversed a portion of its November 28, 2018 interim order that directed SASSA to pay grants into the EPE accounts of recipients who made those biometric elections without submitting the Annexure C form. The effect of the final judgment is that, while SASSA is required to promptly pay social grants into EPE accounts of those recipients who have submitted the Annexure C form electing to have their grants paid that way, SASSA is not required to pay grants into the EPE accounts of those recipients who have not submitted the Annexure C form, despite having provided their previous biometric consent and may continue to auto-migrate those grants to SAPO accounts. The High Court did not award costs.

The Company is currently evaluating the options available to it, including an appeal against the judgment.

“SASSA failed to implement the High Court’s interim order and pay the social grants for the December, January or February payment cycles into the EPE accounts for those customers who have previously been auto-migrated without consent. Unfortunately, this has had a material adverse impact on our financial results, and we expect to report a significant loss for the second quarter of fiscal 2019. This loss arose primarily from the deployment of our full infrastructure to service current and new customers during that time, and a substantial increase in our allowance for doubtful finance loans receivable on loans extended to our EPE account holder base,” said Herman Kotzé, CEO of Net1. “Our near-term focus is to ensure that we right-size our South African operations and get them to a break-even level by Q4 2019. We remain in a net-cash position, and our non-EPE-related businesses remain meaningful positive contributors to the Group.”
